Latest News:

- Daffodil planting for Biodiversity

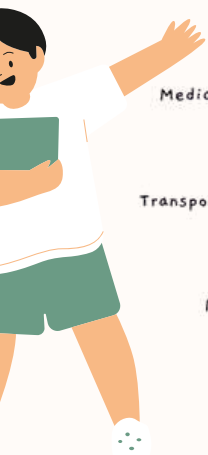

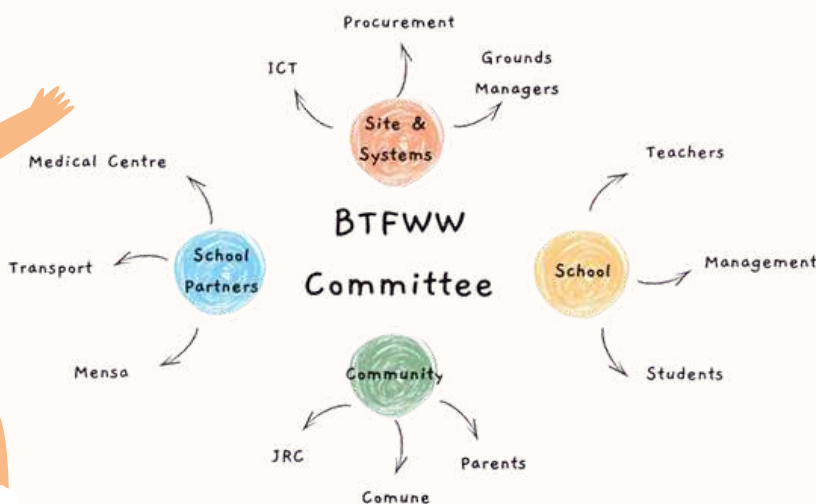

In November children and teachers from the Primary worked with lots of parent volunteers to plant daffodil bulbs all around the school grounds. We hope to encourage many more insects to help our school biodiversity in the Spring.

- Weighing our waste

The whole school is working to reduce our waste following the Green School guidelines, so we have been busy collecting and weighing our rubbish.

Building the Future We Want is our new project for 2023/2024 and brings together all of the key stakeholders of our school to unite and work together towards our sustainability and well-being goals.

Our mission is to educate and inspire our pupils, to embrace a sustainable lifestyle and mindset and to take action to make the changes they feel are needed to improve the world around them. See our targets on the house diagram overleaf.

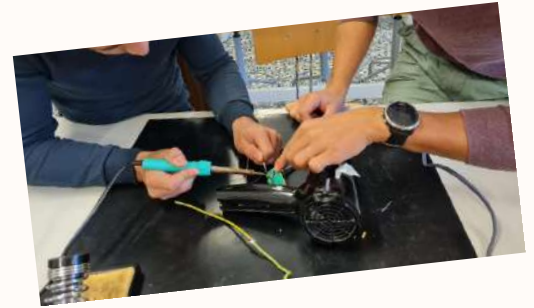

- **First Community Swap Sale**

Thanks to the parents for organising our first every community swap sale in November. It was a great success with many people donating and taking away toys, books and clothes for a new life. We hope to do another one in the Spring.

- **Secondary Repair Workshop**

Secondary students have been busy learning about electronics and repairing broken household items.

- **Secondary Energy Measuring**

Students in S5 and S6 have been learning how to measure energy as part of our Green School energy pillar

- **Tree Planting**

In November, Secondary students and teachers worked together to plant a Cherry Tree in celebration of Italian Tree Day.

Want to get involved?

The parents have a very active sustainability group, please contact Vera at eursvolunteer@proton.me

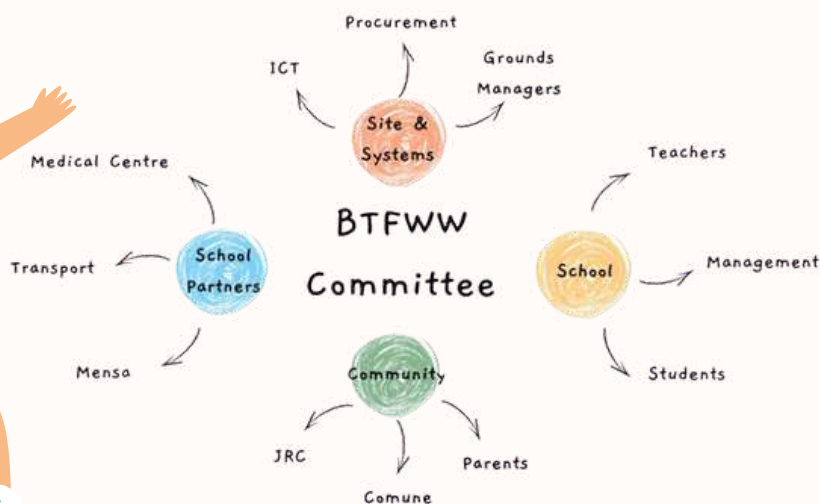

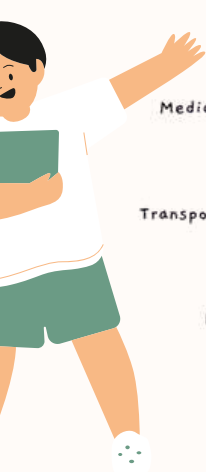

NEWSLETTER SULLA SOSTENIBILITÀ

<https://greenergreen.eurscva.eu>

Costruire il futuro che vogliamo è il nostro nuovo progetto per il 2023/2024 e riunisce tutte le principali parti interessate della nostra scuola per unirsi e lavorare insieme verso i nostri obiettivi di sostenibilità e benessere.

La nostra missione è educare e ispirare i nostri alunni, ad abbracciare uno stile di vita e una mentalità sostenibili e ad agire per apportare i cambiamenti che ritengono necessari per migliorare il mondo che li circonda. Vedi i nostri obiettivi sul diagramma della casa sul retro.

Ultime notizie:

- Piantagione di narcisi per la biodiversità

Nel mese di novembre i bambini e gli insegnanti della Primaria hanno lavorato con tanti genitori volontari per piantare bulbi di narciso in tutto il cortile della scuola. Speriamo di incoraggiare molti più insetti ad aiutare la biodiversità della nostra scuola in primavera.

- Pesare i nostri rifiuti

Tutta la scuola sta lavorando per ridurre i nostri rifiuti seguendo le linee guida della Green School, quindi ci siamo impegnati a raccogliere e pesare i nostri rifiuti.

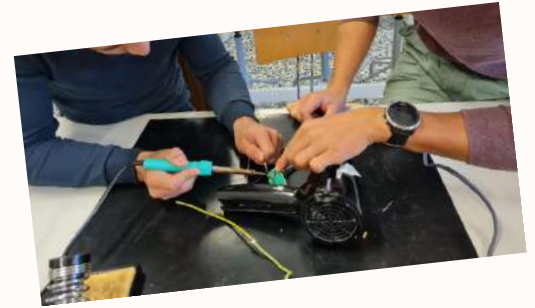

- **Prima vendita di scambio di comunità**

Grazie ai genitori per aver organizzato la nostra prima vendita di scambio di comunità a novembre. È stato un grande successo con molte persone che hanno donato e portato via giocattoli, libri e vestiti per una nuova vita. Speriamo di farne un altro in primavera.

- **Officina di riparazione secondaria**

Gli studenti della scuola secondaria sono stati impegnati a imparare nozioni di elettronica e a riparare oggetti domestici rotti.

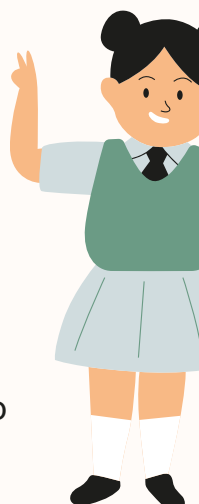

- **Misurazione dell'energia secondaria**

Gli studenti delle scuole S5 e S6 hanno imparato a misurare l'energia come parte del pilastro energetico della nostra Green School

- **Piantazione di alberi**

A novembre, studenti e insegnanti della scuola secondaria hanno lavorato insieme per piantare un ciliegio in occasione della Giornata italiana dell'albero.

Vuoi essere coinvolto?

I genitori hanno un gruppo di sostenibilità molto attivo, contatta Vera all'indirizzo eursvolunteer@proton.me

Vision

Empower our pupils to realize their full potential and drive the change they want to see in the world.

Mission

We will educate and inspire our pupils, to embrace a sustainable lifestyle and mindset and to take action to make the changes they feel are needed to improve the world around them.

Protecting our Planet

We commit to measuring and reducing our impact on the environment, within the framework of the Green School and Greener Green initiatives.

Waste

Using the Green School Methodology measure our waste and set a reduction target for 2024/2025.

Biodiversity

Using the Green School Methodology measure biodiversity in the school grounds and set a target to increase biodiversity in 2024 /2025.

Procurement

Create and adopt sustainable procurement policies across the school and community.

Energy

Monitor our energy and GHG emissions and set a reduction target for 2024/2025.

Connecting with Purpose

We enrich and learn from our communities

Sustainable Education

We equip our students with key competences in sustainability.

Wellbeing for our Community

We provide an environment for our students and teachers to thrive

Community Outreach

Develop a roadmap for implementation of the CAAP.

Community Engagement

Develop a community engagement programme to better connect all the school's key stakeholders (JRC, Varese Comune...)

Sustainability in the Curriculum

Embed Social and Environmental Sustainability throughout our whole curriculum.

School Culture

Create an agreed set of school values that are displayed and students are given recognition for.

Wellbeing Survey

Carry out an annual wellbeing survey and Stakeholder Engagement Session for staff and students and use feedback to develop an Action Plan to improve areas of weakness.

GOVERNED by the Sustainability Committee
ENGAGING COMMUNICATIONS to share work with community
